

Enagic Basic 8 Point Commission Structure

For LevelLuk SD501

Distributor level, as represented by the total number of units sold, increases in the arrow direction.

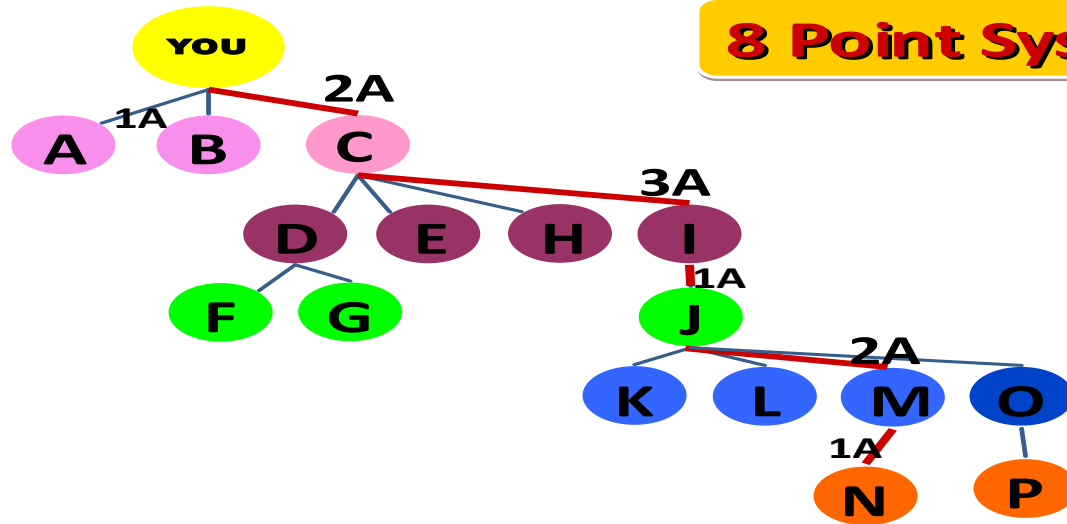

*An additional Special Point (SP) commission bonus of \$60 per point applies when you have made a direct sale within 93 days.

*8 Point commissions – Each time a machine is sold, Enagic pays commissions up to eight points

(Please do not confuse eight points with eight levels)

8 Point System

A and B are your 1A lines and C is your 2A line. Your commission amount generated by A, B and their down lines are limited to one point. Commissions from C and his/her down lines are always up to two points. For this exercise, H is the 2A line and I is the 3A line of C.

When N purchases a machine,
 M receives one point commission, as N is in their 1A line
 J receives two point commission, as M is in their 2A line
 I receives one point commission, as J is in their 1A line
 C receives three point commission, as I is in their 3A line
 You receives one point commission, not two, even though C is in your 2A line

Total commissions for M, J, I and C are seven points.

Maximum commissions paid by Enagic are eight points.

Total points paid: $8 - 1 - 2 - 1 - 3 = 1$ Point remaining, thus your commission remains as one point.

EIGHT POINT COMMISSIONS:

Each time a machine is sold, Enagic pays commissions up to eight points
 (Please don't confuse eight points with eight levels.)

General Commissions

Basic 8 Point commissions are paid daily.

All 1A and above distributors are qualified to receive basic 8 point commissions.

The commissions are paid within 8 points with the amount of the commission based on the distributor ranking and product model sold.

Filter Commissions

Filter commissions are paid daily, with those commissions paid to the distributors by cheque after the total amount accumulated equals \$350.

All 1A and above distributors are qualified to receive filter commissions.

The commissions are paid within 8 points with the amount of commissions being based on distributor ranking and type of filter sold.
